

Chart A – For Most People Who Must File

If you CAN be claimed as a dependent by another taxpayer, you must file as a dependent whether you are being claimed or not. See Chart B for filing requirements.

	65 or older	\$11,850
Married filing jointly***	under 65 (both spouses)	\$20,600
	65 or older (one spouse)	\$21,850
	65 or older (both spouses)	\$23,100
Married filing separately (see the instructions for line 3)	any age	\$ 4,000

* If you were born on January 1, 1951 you are considered to be age 65 at the end of 2015.

** **Gross income** means all income you received in the form of money, goods, property, and services that is not exempt from tax, including any income from sources outside the United States or from the sale of your main home (even if you can exclude part or all of it).

- Do not include any social security benefits unless
 - (a) you are married filing a separate return and you lived with your spouse at any time in 2015 or
 - (b) one-half of your social security benefits plus your other gross income and any tax-exempt interest is more than \$25,000 (\$32,000 if married filing jointly).
 If (a) or (b) applies, see the instructions for lines 20a and 20b to figure the taxable part of social security benefits you must include in gross income.
- Gross income includes gains, but not losses, reported on Form 8949 or Schedule D.
- Gross income from a business means, for example, the amount on Schedule C, line 7, or Schedule F, line 9. But, in figuring gross income, do not reduce your income by any losses, including any loss on Schedule C, line 7, or Schedule F, line 9.

*** If you did not live with your spouse at the end of 2015 (or on the date your spouse died) and your gross income was at least \$4,000, you must file a return regardless of your age.

Individuals who do not have a filing requirement based on this chart should also check Chart C, Other Situations When You Must File, and Chart D, Who Should File. Individuals with earned income but who do not have a filing requirement may be eligible for the Earned Income Credit.

Chart B – For Children and Other Dependents

If your parent (or someone else) *can* claim you as a dependent, use this chart to see if you must file a return.

It also includes unemployment compensation, taxable social security benefits, pensions, annuities, and distributions of unearned income from a trust. **Earned income** includes salaries, wages, tips, professional fees, and taxable scholarship and fellowship grants. **Gross income** is the total of your unearned and earned income.

Note: For children under age 18 and certain older children, unearned income over \$2,000 is taxed at the parent's rate if the parent's rate is higher than the child's. For this purpose, "unearned income" includes all taxable income other than earned income, such as taxable interest, ordinary dividends, capital gains, rents, royalties, etc. It also includes taxable social security benefits, pension and annuity income, taxable scholarship and fellowship grants not reported on Form W-2, unemployment compensation, alimony, and income received as the beneficiary of a trust. If the child's unearned income is more than \$2,000, Form 8615 must be used to figure the child's tax. Form 8615 is out of scope.
