Part IV Supplemental Information. Provide the information required in Part I, line 2; Part III, column (b); and any other additional information.

Return Reference	Explanation
Part I Line 2	Home Building Facilitation The next stage is selecting the lot and builder for the home. Several communities in the veterans preferred geographic area are scouted and two to three communities are identified by Helping a Hero for lot availability. Ideally, the developer donates the lot in a master planned community. Where no master planned communities exist, Helping a Hero endeavors to roll the land or lot price into the project price often a smaller house must be constructed to offset the expense of the lot. Alternatively, the veteran may opt to purchase a lot of their own choice, to be paid by the veteran. Helping a Hero refines the selection based on veteran preference as to which lot works best. Helping a Hero then identifies a builder willing and able to construct a home on the chosen lot and obtains a home floor plan that can be modified to meet the adaptability criteria and is within budget. Once the floor plan has been modified based on the veterans needs, a review occurs with the veteran where additional modifications are made as needed. Again, the veteran is very involved in this stage of the process. Once decisions about lot, builder, and floor plan have been made, the construction contract is executed and the physical building process begins. A GroundBreaking ceremony is held. This is described in more detail in Part III of the 990. Where the VA Specially Adapted housing grantSAHor SHA will be used, VA regulations are followed with input from the veteran to ensure adaptations comply VA SAH standards or a waiver is agreed to. The floor plans are adapted to comply with applicable VA standards before construction starts. Upon completion, these adaptations are verified by an SAH inspector from the VA. In may cases, the builder and subcontractors will donate or discount their materials and services towards the overall cost of the house. A component of the construction process are visits by Helping a Hero personnel to ensure that the builder and sub-contractors stay in compliance with the applicable standards.
Part I Line 2	The wounded warrior is also kept apprised of the construction process. Documentation is kept at the corporate headquarters in Houston, Texas. Once the home has been completed, the total cost , including in-kind donations, is tabulated. Any VA housing grant that is awarded at the the time the veteran takes title to the new home is also used to pay for the construction, in addition to the veterans minimum 50,000 contribution unless the builder asks the charity to waive the vetrens portion If necessary, Helping a Hero may advance the VA grant funds during the building phase and will be repaid upon completion of the construction when the VA grant is awarded. Helping a Hero donates the balance of the construction cost of the house, Beyond the hero mortgage, in kind donations, and VA grants. Helping a Hero holds a Welcome Home Ceremony when the home is completed and the wounded hero has closed on the property and taken title. This is described more fully in Part III of the 990. Relevant documentation is kept at the corporate headquarters in Houston, Texas.
