Form 990 (2017)

## Form 990, Part III, Line 4a:

Hospital Services-Overlake Hospital Medical Center is a nonprofit, independently operated regional center serving the eastern Puget Sound region with medical facilities in Bellevue, Issaquah, Kirkland, Redmond and Sammamish. Founded in 1953, today Overlake Hospital is a regional leader in health care, providing advanced medical services in the areas of cardiac care, general and specialty surgery, women's services, cancer care and emergency services. The Hospital also has a network of neighborhood clinics in its primary service area. There were 18,295 patients admitted for inpatient medical care for a total of 67,641 patient days. There were 235,117 outpatient visits out of which 49,960 were for emergency care visits. The Hospital delivered 3,608 babies. Overlake Medical Clinics provided 299,674 patient visits. Overlake Hospital demonstrated a commitment to improving the health of the community by supporting many health-related events, programs, clinical research and made various contributions throughout the year that had a direct benefit to the community. The Hospital maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone for services. Overlake Hospital provided care to 6,685 patients who were uninsured or under insured at an estimated cost of \$7,057,000. The Hospital provided care to Medicaid patients at rates below the cost of providing services. The payments were less than cost by \$15,971,000. In keeping with the Hospital's spirit of giving back to the community, it provided a total of \$5,701,000 of community benefit service activities. As the health care needs of our community increase and grow more complex, Overlake has strengthened its commitment to providing the most advanced treatment and technology alongside compassionate care every day. With health care prominent in the national debate, Overlake Medical Center is giving Eastside residents an opportunity for a wide variety of free health screenings where the barriers of both cost and language are removed. The screenings are free and do not require patients to have health insurance. The free screenings include cholesterol, blood pressure, body mass index, cardiac and diabetes risk assessments. Consultations with a health care provider will allow patients to understand what screening results mean. Furthermore, not wanting language to be a barrier to patients not fluent in English, Overlake offers interpreters in multiple languages including Mandarin, Cantonese, Hindi, Spanish and Russian. It is part of Overlake's mission to bring health care out into the community, to make it accessible to all people and these complimentary screenings help us fulfill our mission in a meaningful way. In September 2017, Overlake Medical Center opened its doors to the new Overlake Cancer Center, a project that transforms the way cancer treatment is delivered to patients. The new Center was designed from the ground up by cancer survivors and their families, doctors and staff, and has resulted in a comprehensive facility that allows patients to remain in one location to receive the best possible treatment with compassionate care and a holistic approach. The goal of the new Cancer Center is to offer a truly patient-centered model of cancer care. Patients receive the most up-to-date medical care, technology and expertise, plus the comfort and personal attention of a community hospital. Overlake Medical Center received the Washington State Hospital Association's 2017 Community Health Leadership Silver Award for its annual Active Senior Fair, a free one-day educational and outreach event that has helped improve the lives of Eastside Seniors. The sixteen types of health screenings included lower-leg vascular screening, stroke-risk assessment, blood pressure, bone density, and diabetes consultation. Workshops offered with physicians and staff focused on other topics important to seniors including fall prevention and colon health. Overlake's Heart & Vascular Center provides electrophysiology, cardiac catheterization and interventional radiology services. Since December 2013, the heart valve team at Overlake Hospital Medical Center has been performing the minimally invasive transcatheter aortic valve replacement (TAVR) procedure for patients with severe aortic stenosis. Overlake is the only hospital on the Eastside and one of only four hospitals in the state to provide this procedure. Overlake's Women and Infants' Center provides a full continuum of care designed for women in their childbearing years and beyond. Overlake offers exceptional care for elderly patients by educating our nurses in effective geriatric care. For more than 30 years, Overlake has been the leader in providing quality adult and adolescent psychiatric care to the Puget Sound community. Our Specialty School is recognized by the school districts as a leader in helping students who need specialized behavioral services by providing academic, social, emotional and behavioral support. Overlake is expanding its network of Medical Clinics throughout the Eastside. Overlake understands how busy people's day to day lives can be, that's why the Hospital provided patients with convenient, accessible medical care located close to where they live and work. Overlake is proud to be recognized as foremost in the region for our focus on our patients and we have been rewarded for it by patients and families who prefer us for their comprehensive healthcare and through many national awards. Overlake Hospital was the first Level III Trauma Center on the Eastside and we are known for providing award-winning, compassionate and patient-centered care. Overlake received many awards and recognitions both regionally and nationally. In August 2017, Overlake Medical Center was named 2017 "Most Wired" by the American Hospital Association. The award spotlights hospitals that are harnessing innovation to better serve patients. The Most Wired award recognizes Overlake's commitment to integrating technology in a meaningful way into patient care. Our methods and leading-edge technology allow our providers to better understand our patients and their needs across the whole care continuum. Overlake Medical Center was recognized as the only Hospital in Washington to be named among the top 5% in the Nation for Joint Replacement and for Treatment of Stroke in 2018 by Healthgrades. Overlake is also the only hospital in Washington to achieve Excellence Awards and recognition among the top 10% in the nation in Neurosciences, Pulmonary Care, Stroke Care, Bariatric and Joint Replacement. Furthermore, Overlake is Washington's only hospital to achieve the Bariatric Excellence Award from Healthgrades for 2018. Receiving these distinctions in all of these specialties is reflective of our multiple, ongoing strategic initiatives around providing an excellent patient experience while delivering the highest quality and safest care. In March 2018, Overlake Medical Center and Clinics received the Bellevue Chamber of Commerce's inaugural Chairman's Community Pillar Award for 2018. The award recognizes Overlake's long-standing excellence and significant positive impact on the Eastside Community. In April 2018 Overlake Medical Center received an "A" safety rating from the Leapfrog Group, the eighth A rating in the past nine rating cycles. An A rating highlights Overlake's ongoing commitment to maintaining the highest quality and safety standards in its hospital and clinics. The Safety Grade assigns letter grades of A,B,C,D and F to hospitals nationwide based on their performance in preventing medical errors, infections and other harms.

### **Form 990, Part III, Line 4c:**

Education Services- In addition to the excellent care we provide our patients, the Hospital firmly believes education is critical to overall wellness so the Hospital reaches out to the community to engage and empower its patients in becoming educated healthcare consumers by offering free and low-cost classes for all age groups. Health education is an important part of preventive care. The Education Program provided 61,340 family contact hours offering classes of a wide range of health related topics including women's health, prenatal care, coping skills, dealing with cancer, positive parenting, safety, asthma, heart disease, diabetes, living wills, incontinence, weight loss, maintaining balance, babysitting for teens, CPR and healthy lifestyles.

Form and Line Reference	Explanation
Part III, Line 2 - Methodology Used To Estimate Bad Debt Expense	Patient bills are reduced by payments, contractual adjustments, charity adjustments, and other adjustments as applicable. Patients are then responsible for any remaining balance. If a patient does not pay the balance or make payment arrangements according to the collection policy, the balance is written off to bad debt. The bad debt expense on Schedule H, Part III, lines 2 and 3 are estimated based on the cost to charge ratio.
Part III, Line 3 - Methodology of Estimated Amount & Rationale for Including in Community Benefit	The Hospital believes that approximately 76% of the bad debt expense are related to patients that would be eligible under the Hospital's charity care guidelines had the patient provided the financial information necessary to make the determination. This percentage is based on running credit checks on a sample of accounts that were being sent to bad debts.

**990 Schedule H, Supplemental Information**

Form and Line Reference	Explanation
Part III, Line 4 - Bad Debt Expense	Provision for Bad Debt footnote on attached Audited Financial Statement page 15, section 6
Part III, Line 8 - Explanation Of Shortfall As Community Benefit	The costing methodology for Medicare allowable cost is derived from FY 2018 Medicare Cost Report. The Hospital believes that all of the Medicare shortfall should be treated as community benefit. The IRS community benefit standard includes the provision of care to Medicare patients and the Hospital continues providing care to the Medicare beneficiaries regardless of the shortfall. By absorbing the Medicare shortfall, the Hospital thereby relieves the federal government of the burden of paying the full cost for Medicare beneficiaries.

**990 Schedule H, Supplemental Information**

Form and Line Reference	Explanation
Part III, Line 9b - Provisions On Collection Practices For Qualified Patients	The Hospital will place a patient's account on hold when a patient's account is being considered for charity. Once a determination has been made that a patient qualifies for charity care, the patient's account is reduced by the charity amount granted and a letter is sent to the patient noting the charity adjustment. The patient may appeal the decision if he/she believes there is additional information that should have been considered or the financial situation has changed. The patient is responsible for any balance remaining after the charity adjustment, if any, and the collection process will continue in the normal process.
Part VI, Line 2 - Needs Assessment	In 2018, the Hospital participated in a collaborative process for the Community Health Needs Assessment as part of the King County Hospitals for a Healthier Community (HHC). HHC is a collaborative of all 11 hospitals and health systems in King county and Public Health-Seattle & King County. The HHC's vision is to participate in a collaborative approach that identifies community needs, assets, resources, and strategies toward assuring better health and health equity for all King County residents. This shared approach avoids duplication and focuses available resources on a community's most important health needs. HHC recognizes that partnerships between hospitals, public health, community organizations and communities are key to successful strategies to address common health needs. Data analyses were conducted at the most local level possible for the medical center's primary service area, given the availability of the data. In some cases, data were only available at the county level. Significant health needs were identified and analyzed through a review of the secondary health data prior to the interviews. Health needs were identified using the size of the problem (relative portion of population afflicted by the problem) and the seriousness of the problem (impact at individual, family, and community levels). To determine size or seriousness of the problem, the health need indicators were measured against benchmark data (county rates, state rates and/or Healthy People 2020 objectives). Indicators related to the health needs that performed poorly against one or more of these benchmarks met the criterion to be considered. Secondary data was collected from a variety of local, county and state sources to present a community profile, birth indicators, leading causes of death, access to care, chronic disease, communicable disease, health behaviors, social issues and school and student characteristics. When available, these data sets were presented in the context of King County and Washington, framing the scope of an issue as it relates to the broader community. In addition, the Hospital conducted targeted interviews to gather information and opinions from persons who represent the broad interest of the community served by the hospital. The report includes benchmark comparison data, comparing the Hospital community data findings with Health People 2020 objectives.

Form and Line Reference	Explanation
Part VI, Line 3 - Patient Education of Eligibility for Assistance	<p>Information about assistance programs starts at the point of registration. Placards describing the financial assistance programs are at all admitting registration desks. Financial assistance can take the form of assistance in qualifying for Medicaid, charity, or prompt pay discounts. Financial counselors are available to discuss the financial arrangements for all patients and they discuss the financial assistance program. The financial counselors will also assist patients in completing the Hospital's charity care application if the patient brings in information and needs help completing the application. The Hospital engages an outside company to assist patients with applying for Medicaid. General information about the assistance programs is then included as part of each patient statement that is sent to a patient and includes the phone number of the Patient Financial Services department to call for assistance. In addition, as part of the account follow up, Patient Financial Service Representatives will call patients after their second statement and will discuss patient financial assistance as part of the call. Overlake's charity care policy is posted on the Washington State Department of Health's website and on the Hospital's website.</p>
Part VI, Line 4 - Community Information	<p>The service area for Overlake is divided into two markets- local and outlying-with the local market divided into five service areas (Bellevue, East, Issaquah/Sammamish, Redmond/Kirkland and SW) and the outlying market divided into two service areas (North and South). The population of the Overlake service area is 897,978. Children and youth, ages 0-17, make up almost one-fourth (24%) of the population of the service area, 6.6% are 18-24 years of age, 30% are 25-44, 27.8% are 45-64, and 11.7% of the population are seniors, 65 years of age and older. The area has higher rates of children under age 18 and fewer seniors when compared to the county and the state. The majority race/ethnicity in the service area is White/Caucasians (66.1%) while Asians make up 19.3% of the population, and Hispanics or Latinos are 7%. Poverty thresholds are used for calculating all official poverty population statistics and are updated each year by the Census Bureau. In the Overlake service area, 6.5% of the population was living at or below 100% of the Federal Poverty Level (FPL) and 14.7% were considered low-income (living at or below 200% FPL). These rates are better than county and state. The median household income in the service area is \$101,457. This is higher median income than in the county (\$78,800) or state (\$62,848).</p>

Part VI, Line 5 - Promotion of Community Health	The Hospital staff participates in the county wide disaster preparedness group and is the back up to Harborview Medical Center. The Hospital has an open medical staff model. The Hospital operates an active screening program in which we offer free health screenings at least four times annually at community events. The largest one is the annual Overlake Eastside Vitality Community Health Fair in which we provide over 2,000 free screenings including cholesterol, stroke risk, diabetes and skin cancer. Screening results and free counseling are provided at the events. Those who need to see a physician are given a list of providers, including community medical clinics.
Part VI - Additional Information	Part I, Line 3c In addition to the FPL criteria, there is a residency requirement to either be a resident of the state of Washington or meet an exception for non residents. Non residents may be eligible for financial assistance while receiving services within the Emergency department or as a result of a direct admission from the Emergency Department. Exceptions to the Washington State residency requirement also include refugees, asylees, and those seeking asylum that possess and can present INS documentation. Part I, Line 7 The costing methodology for charity care and unreimbursed Medicaid was the cost to charge method using the cost to charge ratio derived from worksheet 2. The community health improvement cost, health professional education, research and cash and in-kind contributions are direct cost and do not include any indirect cost. The cost for subsidized health services is derived from a cost accounting system that addresses all patient segments. Part V, Section B Line 3e The identified significant health needs were prioritized with input from the community. The following criteria were used to prioritize the health needs: Severity - the perceived impact of the health need on the community; Change over time - determination if the health need has improved, stayed the same or worsened; Resources - availability of resources in the community to address the health need.

Form and Line Reference	Explanation
Part V, Line 5 - Account Input from Persons Who Represent the Community	<p>Overlake Medical Center solicited community input through key stakeholder interviews to identify resources potentially available to address the significant health needs. Overlake Medical Center participated in a collaborative process for the Community Health Needs Assessment as part of the King County Hospitals for a Healthier Community (HHC). HHC is a collaborative of all 11 hospitals and/or health systems in King County and Public Health-Seattle &amp; King County. The HHC members joined together to identify important health needs and assets in the communities they serve. HHC recognizes that partnerships between hospitals, public health, community organizations and communities are key to successful strategies to address common health needs. The Community Health Needs Assessment incorporated existing demographic and health data for the communities served by the Hospital. It included collection and analysis of input from persons who represent the broad interest of the community served by the hospital, including those with special knowledge of public health. The health needs were identified from issues supported by primary and secondary data sources gathered for the Community Health Needs Assessment. The needs were indicated by stakeholder interviews, focus groups, and secondary data sources. The needs were confirmed by more than one indicator or data source. Community stakeholders, identified by the hospital, were contacted and asked to participate in the needs assessment. Interview participants included leaders and representatives of medically underserved, low-income, and minority populations, as well as the local health department that has "current data or information relevant to the health needs of the community served by the hospital facility," per IRS requirements. The interviews took into account input from a broad range of persons located in or serving its community including, health care consumers, nonprofit and community-based organizations, academic experts, local government officials, local school districts, health care providers and community health centers.</p>
